**Your business is your Patient charts:
Safe long-term offsite back-up of records**

There are an uncountable number of threats to critical business records today, including fire, theft, sprinkler system damage, earthquakes, and more.

VaxisEHR utilizes the strength of a national computer network to bring dynamic disaster-defiant IT systems to our application. This allows us to offer redundant server architecture, firewalls, internet connections and power located in hardened facilities.

VaxisEHR was designed by **Nexix Inc.**

Nexix Inc., specializes in applications that are delivered online and help companies integrate workflow into software applications. They specialize in travel clinic software.

Revolutionizing how Travel Clinics manage records

» Painless...Profitable...Really

HPV (Gardasil)	3 Doses: 0-2-6mos	Long term protection			
Influenza	1 Dose	Repeat yearly		09/23/2008 09/20/2007 10/03/2006 10/18/2005	

VaxisEHR is an online application, which means you access patient files instantly from any computer connected to the Internet. You don't need to download the software or constantly upgrade it. And your medical files are securely protected and backed up in multiple locations.

You can be up and running in a couple of hours. Really!

We set up your clinic's **VaxisEHR** site before your training begins.

We provide live online training for your clinic staff.

After a two-hour training meeting you can immediately begin to use **VaxisEHR**.

Our staff is available weekdays to answer any questions.

With **VaxisEHR**:

You work with patients, their vaccines, medical history and specific travel itineraries.

You get recall protection... by tracking vaccine inventory by specific lots.

You are able to schedule follow-up shots and visits, to ensure that patient care is complete.

You can completely automate your patient and vaccine records and keep them secure.

Managing your travel clinic will never be the same.
